

Our St. Joseph's Cheerleaders: Our "Featured Athletes" of the Month.

"A great smile is such a large part of competitive cheerleading, it's actually a category that is judged", says Wendy Godfrey, St. Joseph's Cheerleading Coach for the past 4 years. "This particular squad has done very well. They have worked very hard, have lots of school spirit and I am very proud of them."

"These young ladies and their parents become like my family because I get to know them on so many different levels." Wendy Godfrey has also been our Orthodontic Treatment Coordinator since 1992. "I coach them at St Joseph's School and then I also have the privilege to work with them when they get their braces at Dr. G's. It is wonderful to see them

grow and develop a healthy smile and bite."

Deb Nevant, President of St. Joseph School's PTO and also Cheerleading Coach adds, "I wanted my daughter to have a healthy smile. A great smile promotes self-confidence and that

can only lead to bigger and better things for her."

"At first we came to Dr. G's office because a lot of Gabby's friends come here. But I liked the feeling of confidence I felt when I walked in the door. I just knew that I was in the right place, that everything would be taken care of", says Coach Nevant.

If you want a healthy, attractive smile for yourself or your child, then call our office today for a complimentary initial examination. Let's discuss your options together. Treatment is affordable; we make payment arrangements and we accept assignment of most insurances.

Our St. Joseph's School Cheerleaders
