

# Happiness is Contagious!

Happiness, like the flu, spreads through social networks. When something good happens to someone, the resulting happiness radiates outward like ripples on a pond.

Sisters Mrs. Patty Shaffer, and Mrs. Mary Jo Rahn, both from Sharon, are just 2 of 8 children in their family. All together there are 26 cousins. Almost every weekend the entire family gets together, they are very close.

After Mrs. Shaffer's twin daughters and son, Olivia, Rachel and Vinnie, had braces in our office, she was so impressed that she told her sister, Mrs. Rahn, who then brought their cousin, Leo, in for treatment.

So what did Mrs. Shaffer tell her sister? "The kids are made to feel important by involving them in the decision-making process. The office is well run, it's very organized. The schedule is very accommodating to working families with no waiting. We are always kept well-informed."

*Thank you, Shaffers and Rahns, for being our "Feature Families" for this month. Our practice continues to grow as "happy families" send us other "happy families".*
