

# The Kirschs: Our featured “Family of the Month”

“All 3 of our children have always been very outgoing and sure of themselves,” says mother, Paula Kirsch, “but I am positive that having nice smiles and straight teeth have added to their self-confidence.”

“We started going to Dr. Gulland’s office in 2002 when Jamie was in 7th grade, she was our first in braces. I really didn’t know what to expect but my kids have always been made to feel very comfortable. The staff keeps us informed of everything that they are doing and let us know what to expect down the road. With Daniel and Alexander following closely behind Jamie, I have become more and more familiar. Now Dr. Gulland and his staff are like family and that has really helped to make the whole experience more enjoyable.”

“Our family’s experience with Dr. Gulland’s office over the last 7 years has been fantastic! I cannot imagine going anywhere else!”
